## COUNTRY CLUB IDEA

Favored at Meeting of  
Manoa Golf Club.

The Honolulu Country Club proposition was given a boost last evening when the Manoa Golf Club adopted a resolution to the effect that it favored such an organization on the lines of the prospectus which has already been published. Informally, the Manoa Club also favored the report of the special committee which has practically settled upon the Rooke property in Nuuanu Valley as the site of the proposed club.

D. W. Anderson presided and W. W. Thayer was secretary. Anderson reported verbally on the Rooke proposition, and Mr. Thayer reported in extenso on the natural facilities which the Rooke place offers for the establishment of a combined golf link, shooting range, cricket and tennis grounds, swimming pool, etc. The gentlemen stated that the prospectus for the Country Club called for a capitalization of \$100,000, with power to increase, divided into 400 shares of \$25 each. The property could be rented at \$75 per month for a period of twenty years. There would be considerable original expense to convert the property into suitable links, etc., largely comprising clearing of the land, and several thousand dollars would be required to build a clubhouse on tropical lines, and to make other improvements. The rental was considered by some to be too large.

As yet no word has been received from the Rooke heirs who reside in England, but Mr. Holmes, the local legal representative, felt certain the property could be leased on the above terms.

Mr. Hutchins reported that a canvass of the city showed a willingness on the part of all members of the Manoa Golf Club to join the new organization, and business men who are not golfers, cricketers or gunners had subscribed. Some had taken several shares at \$25 each. Mr. Hutchins said there would be no trouble raising funds to start the project.

Mr. Hutchins and Mr. Thayer stated that the tenure of the Manoa Golf Club, in its present location, which is owned by H. E. Cooper, was short-lived. Mr. Cooper had gradually taken over his lands, fenced them in and had turned a large number of horses on the links for pasture. The greens were now spoiled and it would be only a matter of a few weeks before they were ruined.

Those present at the meeting favored the Country Club idea, and all seemed desirous of getting into permanent quarters. The Country Club is looked upon as a means of solving the social outing question. With a fine, commodious clubhouse, supplied with a reception hall, broad lanais, kitchen and private rooms, ladies can entertain on certain days of the month, and there the hostesses may entertain to the exclusion of all but the invited ones.

The Manoa Club concluded its session by electing officers for the ensuing term as follows: President, Governor Carter; vice-president, C. J. Hutchins; secretary, W. W. Thayer; treasurer, J. O. Young; captain, Dr. C. B. High. The treasurer reported \$200 on hand.

## DR. OSTROM'S WORK FOR THIS SUNDAY

Dr. Ostrom tried his best to get passage for himself and party on the China, but only Mr. Hillis, the single man, was able to make it. The doctor is a man who cannot long remain idle, so until one of the big steamers comes along he is doing literary work and incidentally responding to special calls to speak. He did so well by the Young Men's Christian Association Monday night both at the dinner and as an anniversary speaker that the association made bold to call on him for the coming Sunday. At 10 a. m. he will speak at the H. R. T. & L. Co. Employees' Club house; at 4:30 he will address the Men's meeting at Association hall, after which the usual light supper will be served for those who cannot well get home before the later services; and he will finish the day with a Soldiers' meeting at Camp McKinley at 7:30. A number of men are wanted to help in the singing at this last meeting. The hour of 4:30 should see a crowded hall.

## CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.

This remedy is everywhere acknowledged to be the most successful medicine in use for Bowel Complaints. It always cures, and cures quickly. It can be depended upon even in the most severe and dangerous cases. Cures griping, all kinds of diarrhoea, and at the first unusual looseness of the bowels should be taken. Sold by Benson Smith & Co., Ltd., agents for Hawaii.

Governor Carter yesterday received in his mail an order from the Quartermaster General at Washington for transportation of the band to the Portland Exposition. The order is by authority of the Secretary of War.

## SEA AND SHORE

Yesterday was a big day in shipping circles for three ocean liners came in from the coast. The first to arrive was the P. M. S. S. Siberia from San Francisco, which docked at the Naval dock. As she finished docking the Alameda came into port from San Francisco, and at 4 p. m. the Manuka arrived from Victoria.

The Siberia beat the Alameda into port on the run from the coast, although leaving there two hours behind the Oceanic boat.

The Siberia was in port early. She did not bring the mail, that having been put aboard the Alameda. Capt. Smith permitted the Siberia to speed a little on the way. The Siberia overhauled the Alameda the second day out and after that the vessels were in sight of each other until arrival. The passengers were amazed to learn the war news.

A large number of passengers were brought to Honolulu including Col. G. W. Macfarlane, wife and child; Mr. T. Prime, the noted theosophist, and his bride, formerly Mrs. Mary Hendricks of Kaimuki; "Toots" Cunha, returning from college to attend the wedding of his sister, Miss Cunha and Dr. Murray; George Beckley, Jr., home from college; Miss Viola Mutch, Mrs. J. A. Matthews, wife of Judge Matthews, man of Kailua; Mrs. George Castle and Miss Castle, Mr. Walter F. Dillingham, back from a business trip. Through passengers are C. I. McCaskey, son of Col. McCaskey, U. S. A., and bride, en route to Manila; Hon. E. V. Morgan, U. S. Minister to Korea; C. A. Griscom, head of the "shipping trust," or the International Mercantile Marine Co., accompanied by Mrs. Griscom, Howard Wood, Dr. George S. Gerhard. The International absorbed several Atlantic steamship lines and the merger finally fell through. Miss Carrie Sweigert, a California belle, goes to Japan to become the bride of Edward S. Sullivan of the Standard Oil Company. The marriage will take place in Yokohama, June 14. Sullivan is known as the "Big Commodore."

The Siberia carries a large quantity of religious candles sent out by Russia to Russian prisoners held in Japan. She has 7000 tons of freight. The Siberia departed for the Orient at 6 p. m.

The Alameda brought a fairly good crowd of passengers. The liner docked at the Oceanic wharf at 8 a. m. Among the passengers were Deputy Sheriff Henry Vida, who brought embassador Henry Kapea all the way from London to stand trial here. Mrs. K. Broder, formerly Miss Spalding, Mrs. Broder, will remain here. F. W. Everett of the Seaman's Institute returned from San Francisco. George Allen, who was in trouble in a Puget Sound city, has returned. He was accompanied by J. E. Alexander, a San Francisco attorney, who is said to have great success in will contests, and it is said that this may mean an attempt to break the will of the late S. C. Allen.

## SHIPPING NOTES.

The Siberia carries \$2,000,000 worth of silver bullion in her treasure tanks.

Dr. Hauxhurst, formerly of the Copple, is now surgeon of the Siberia.

The Rosecrans arrived at San Francisco May 21 with 5000 bags of sugar.

The A.-H. steamer Alaskan reached San Francisco on May 27, 58 days from New York. She is an oil-burner now.

The schooner Solano and bark K. P. Richey collided near Black Point, San Francisco bay, and sustained several thousand dollars' worth of damage.

The A. J. Fuller reached San Francisco with her cargo shifted and the W. H. Marston with her flying jib gone. The Mary E. Foster lost several sails.

Capt. Niblack, U. S. N., left on the Mauna Loa yesterday for Lahaina to take the sextant angles and bearings for correctly locating the Lahaina light.

Capt. A. P. Berry, quartermaster of the transport Sheridan, has been dismissed under a cloud and his place given to Captain Frank Morrow, U. S. A.

The Australia has sailed with supplies for the sealing stations in Siberia. Among the passengers is a Russian governor. The Australia will return with furs.

Second Mate Olsen of the schooner Mary E. Foster, which arrived at San Francisco May 19, had his arm broken in a storm close to the coast. Capt. Johnson's wife, formerly a trained nurse, set the arm.

The Dutch East Indies and the Caroline Islands have been brought into direct cable communication with the United States through an extension of the Pacific Commercial Cable Company's line from Guam to Yap in the Caroline group.

R. P. Schwerin, vice-president and general manager of the P. M. S. S., entertained a party at luncheon aboard the liner Siberia at San Francisco the day before the vessel sailed for Honolulu in honor of C. A. Griscom of the Shipping Trust.

The transport Thomas did not leave Manila until May 20, and consequently will not reach Honolulu until about June 11. She is due at San Francisco on June 19. The Thomas's delay in starting was due to her having gone to the relief of the stranded Buford.

## THE AGE OF OAHU

It Foots Up Two or  
Three Million  
Years.

Rev. Sereno E. Bishop, D.D., before the Honolulu Teachers' Association last evening, delivered an extempore address on the "Mountains of Oahu," which was listened to with rapt interest. There is probably no man living who has more direct and exact knowledge of the topography and geology of the Hawaiian Islands than Dr. Bishop. The theory he lucidly and succinctly set forth on this occasion was that Oahu originally consisted of one vast dome like that of Mauna Loa on Hawaii, the active seat of all today's living Hawaiian volcanoes. Time and weathering or, in one word, erosion had wrought the present picturesque and diversified shapes of the mountains of this island. Two or three millions of years, if not a longer period, the lecturer gave as the age of the island. The small craters, such as Diamond Head and Punchbowl, were not integral parts of the original dome, but mere pimples of tuff dating back a trifle, comparatively, of 20,000 or 30,000 years.

Miss Stewart, with the third and fourth grades of the practice school, gave a demonstration of the "development of number in the primary grades." Using cardboard shapes suitably lined and divided into parts, also small blocks, the instruction showed a method of making clear to the young mind the real significance of fractions as related to wholes.

Rev. E. B. Turner also spoke entertainingly on the law relating to juvenile offenders.

## STREETS OF NEW YORK DRAWS WELL

The original comedy drama by the late Dion Boucicault of life in New York entitled "Streets of New York" was given last evening to a good house by the Ellefords. The play was finely mounted. Union Square at night and the burning of the tenement house were quite realistic.

The specialty of Miss Selwyn "Meet Me at Portland" was well received.

On next Monday evening incidental to the play the latest moving picture, "The Hero of Liangyang," will be shown. Next week will be the farewell of the Ellefords for this season.

## FROM DISTANT LANDS.

Classes for the study of German and Yiddish have been organized by London's commissioner of police.

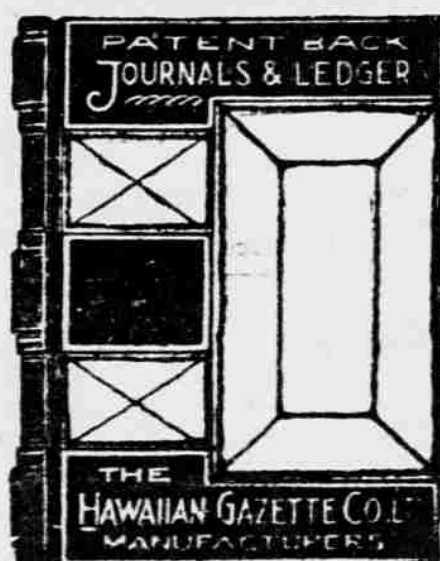

Lord Strathcona, opening the Colonial exhibition at Liverpool, said the next 50 years would witness an enormous expansion of Canada to a population equal to Great Britain and Ireland.

The fund for a monument to the late Gen. Hector Macdonald, who committed suicide in Paris last year, now amounts to over \$10,000. The monument is to be erected at Dingwall, Scotland.

The First Royal Fusiliers landed in England recently after 21 years of foreign service. Their latest was with the Third expedition. It is London's own regiment, the only one, that can march through the city's streets with fixed bayonets.

In France there are 6,000,000 smokers, and of every 15 there are eight who smoke a pipe, five who smoke cigars and only two who use cigarettes. Still, the French consume more than 18,000,000 cigarettes a year, or enough to go around the world if they were placed end to end in a line.

Dr. Stephen Call, of Ingalls, Okla., is about 80 years old, but he spends his winters in the woods coon-hunting. His friends declare he is the oldest and greatest coon hunter alive. About the "time that coons are ripest" the old doctor arranges his spring wagon, loads it up with grub, gets his hounds together and pulls for the tall timber in the Creek country. He often goes out alone for a hunt in the fall and does not return until the following spring.

## Now is the Time to Wear

**Dr. Deimel Underwear**  
(LINEN-MESH)

A great deal of the sickness in the world is caused by unsanitary woolen underwear. Most underwear is made of linen which while being clean has the great disadvantage of being cold and clammy.

By a special process of manufacture, a soft, warm, porous fabric has been evolved by Dr. Deimel, called Linen-Mesh, which is simply linen with the coldness taken out.

Dr. Deimel Underwear has obtained the unqualified endorsement of the foremost members of the Medical Profession and in every part of the globe gives health and comfort—summer, winter, spring and fall.

This underwear is made in such a wide variety of sizes that we can fit everybody.
